

Wheeler's Frozen Desserts Opens First Vegan "Ice Cream" Parlor in Boston

Alisa Fleming, www.GoDairyFree.org ~ After sharing his creamy frozen desserts for numerous reviews and special events, Wheeler has at last opened his official storefront in Boston, MA ... and not a moment too soon. With summer knocking at our door, Wheeler's vegan "ice cream" will be a welcome site to anyone who forgoes dairy, but would like to enjoy a cool and creamy treat in the heat of the afternoon. To the best of my knowledge, this is the first dedicated vegan and dairy-free "ice cream" parlor in the United States. Taking it a step further, Wheeler's Frozen Desserts will also have vegan and gluten-free pastries on hand. See below for a list of flavors and desserts to be served and the store location.
